DORT

Quality Goes Clear Through

Herein lies the significance of the remarkable simplicity of Dort construction. There are fewer parts to get out of order so that chances for trouble are reduced to a minimum. It is surprising how seldom Dort owners find need for service attention.

What makes a furniture store grow--

In the retail furniture business continued growth can only come by satisfying customers.

We believe the way to satisfy customers is to have the right kind of goods, a large and sufficient assortment, the right kind of prices and the right kind of credit. Store service and appreciation of your patronage are also necessary—decidedly.

The "right kind of prices" should be prices that, quality considered, will be as low or lower than can be found elsewhere, regardless of "Sales" or any unusual selling methods.

You may know or have heard something about the record-breaking growth of the Spencer business. Above, you have the reason. By the way, we'd like to show you some real old-fashioned values in upholstered furniture. Drop in some time—soon.
